ABOUT THE RMA

We work to protect the public by ensuring that effective risk assessment and management practices are in place in Scotland.

Established by the Criminal Justice (Scotland) Act 2003, we publish national [Standards and Guidelines](#), provide advice to Scottish Ministers, and contribute to ensuring decisions in the Scottish justice system are defensible and appropriate.

We support bodies responsible for the management of individuals who offend in both custody and the community, and we have specific responsibilities related to administering and overseeing the [Order for Lifelong Restriction](#) (OLR) sentence.

A centre of excellence, we provide independent practical advice and advocate for evidence-based ethical risk assessment and management. We respond to training needs for justice agencies in Scotland and provide education and learning opportunities to increase knowledge, skills and confidence in risk assessment and risk management.

OUR MISSION

To make Scotland safer,
by reducing serious harm

OUR STRATEGIC AIMS

To improve risk assessment and risk management in Scotland, we will:

Develop evidence-based, defensible and ethical methods

Set and raise standards to continuously improve quality

Deliver specialised training to improve skills, knowledge and confidence

Support justice agencies and influence policy

STRATEGIC OBJECTIVES

We will develop evidence-based, defensible and ethical risk assessment and management

IN 2023-24 WE WILL:

- Launch a **free accessible online directory of risk management approaches** for practitioners. The directory will support practitioners and make sure policy-makers' knowledge remains up to date with current evidence of effective practice.

We will set and raise standards to continuously improve the quality of risk assessment and management

IN 2023-24 WE WILL:

- Complete an **update to the RMA Standards and Guidelines for Risk Management** to make sure they continue to reflect current thinking and remain aligned with evidence of effective practice. Up-to-date, evidence-based guidelines support effective practice in risk assessment and management, improving services for individuals with an OLR.

- The **Framework for Risk Assessment, Management and Evaluation (FRAME)** is our national policy for Scotland; it underpins everything we do. This year we will **begin a review of the implementation of FRAME** to make sure it reflects current thinking and can support effective practice in Scotland. The result will be an evidence-informed, up-to-date national policy implemented to promote proportionate risk assessment and management, keeping people safe.

STRATEGIC OBJECTIVES

We will deliver specialised training to improve skills, knowledge and confidence in risk assessment and management

IN 2023-24 WE WILL:

- Develop **new online resources to address the demand for RMA training** from justice partners, in line with the commencement of our eight year Training Strategy. Increasing accessibility and availability of our training will help meet the needs of the justice sector. Our training delivery to police and social work supports effective practice by improving, understanding of risk assessment and risk management.

Brilliant presentation style between the facilitators which helped to promote a very open and safe space for discussion.

- Fundamentals of Risk Practice Course Attendee, 2021

We will support justice agencies and influence policy in risk assessment and risk management

IN 2023-24 WE WILL:

- Subject to its approval by the Scottish Parliament, we will continue to work with policy colleagues on **further considerations for the Bail and Release from Custody (Scotland) Bill**. Supporting implementation, we will provide advice and guidance on risk assessment and management underpinned by the Framework for Risk Assessment, Management and Evaluation (FRAME) approach to inform policy development. 
- Continue engagement with justice colleagues and **take a leading role in Counter-Terrorism in Scotland** to develop pathways with the Prisons Oversight Group and associated sub-groups. Our contribution aims to ensure evidence-based risk assessment and management is part of Scotland's policy approach to Counter-Terrorism. We will support increased understanding of risk assessment and risk management for practitioners, government and services involved in Counter-Terrorism. 
- **Produce research that is designed to review the OLR sentence** and how it functions. This review is to determine if the sentence is functioning in line with expectations. The findings will inform discussions around the sentence and service provision, identifying areas for change. 
- We will conduct a review of our **potential role with the Victim Notification Scheme and Victim Standards**, and continue to engage with victims agencies in Scotland.

KEY PERFORMANCE INDICATORS

We have identified three key performance indicators (KPI) to measure the effective delivery of our statutory functions, manage our resources and maintain the delivery of services to a high standard.

	Target
KPI 1 Evaluations completed within procedural timescales	90%
KPI 2 LS/CMI Helpdesk queries responded to within 10 working days	100%
KPI 3 Fundamentals of Risk Practice training course effectiveness	85%

- KPI 1** We will complete evaluations for initial and amended Risk Management Plans in eight weeks (40 working days); quality assurance of First Grant of Temporary Release applications and Risk Assessment Reports within six weeks (30 working days) and evaluations of Annual Implementation Reports within six weeks (30 working days) of receipt
- KPI 2** We will aim to respond to all LS/CMI Helpdesk queries, via telephone or e-mail, within 10 working days of receipt
- KPI 3** We will evaluate the difference in scores between the pre-course knowledge check and post-course knowledge check to ascertain the effectiveness of our Fundamentals of Risk Practice training course, aiming for a minimum score of 85% at post-course

VISION FOR JUSTICE

The RMA objectives align with outcomes in the Scottish Government's Vision for Justice in Scotland, specifically to help make sure victims voices are heard and reassessing the use of imprisonment.

WE HAVE A SOCIETY IN WHICH PEOPLE FEEL, AND ARE, SAFER IN THEIR COMMUNITIES

Effective risk management contributes directly to reducing crime and creating safer communities. We continue to deliver specialist training to improve knowledge, skills and confidence in risk assessment and risk management of individuals who engage in offending behaviour. We are developing a Training Strategy to support the delivery of our specialist courses for Justice Social Workers and Police Offender Managers.

WE HAVE EFFECTIVE, MODERN, PERSON-CENTRED AND TRAUMA-INFORMED APPROACHES TO JUSTICE IN WHICH EVERYONE CAN HAVE TRUST

We continue our role in overseeing and administering the OLR sentence; all Risk Management Plans and Annual Implementation Reports for individuals subject to the sentence must be submitted to the RMA for approval. We closely scrutinise these and provide guidance where required, so the approval and implementation of these plans can provide assurance that everyone can have trust in our justice services.

WE SUPPORT REHABILITATION, USE OF CUSTODY ONLY WHERE THERE IS NO ALTERNATIVE AND WORK TO REDUCE REOFFENDING AND REVICTIMISATION

Throughout our work we support justice agencies across Scotland to improve risk assessment and risk management, to support individuals to safely remain or reintegrate into our communities. We undertake and publish meaningful and impactful research to reduce the risk of reoffending; this year we will continue our pilot of our internet offending framework. Our work in providing a secondary assurance role for First Grant of Temporary Release applications supports the use of custody only where there is a risk of serious harm.

NATIONAL PERFORMANCE FRAMEWORK

Our work contributes to the Scottish Government's National Performance Framework creating a safer and more successful country.

WE RESPECT, PROTECT AND FULFIL HUMAN RIGHTS AND LIVE FREE FROM DISCRIMINATION

We advocate for an ethical, evidence-based and human rights respecting approach to risk assessment and risk management.

WE ARE OPEN, CONNECTED AND MAKE A POSITIVE CONTRIBUTION INTERNATIONALLY

We are an authority on risk assessment and management in Scotland, and we share our knowledge and understanding with justice partners internationally.

WE LIVE IN COMMUNITIES THAT ARE INCLUSIVE, EMPOWERED, RESILIENT AND SAFE

We are committed to reducing the risk of serious harm posed to the public through our work. We take proactive steps to support the reintegration of individuals with an OLR into the community.

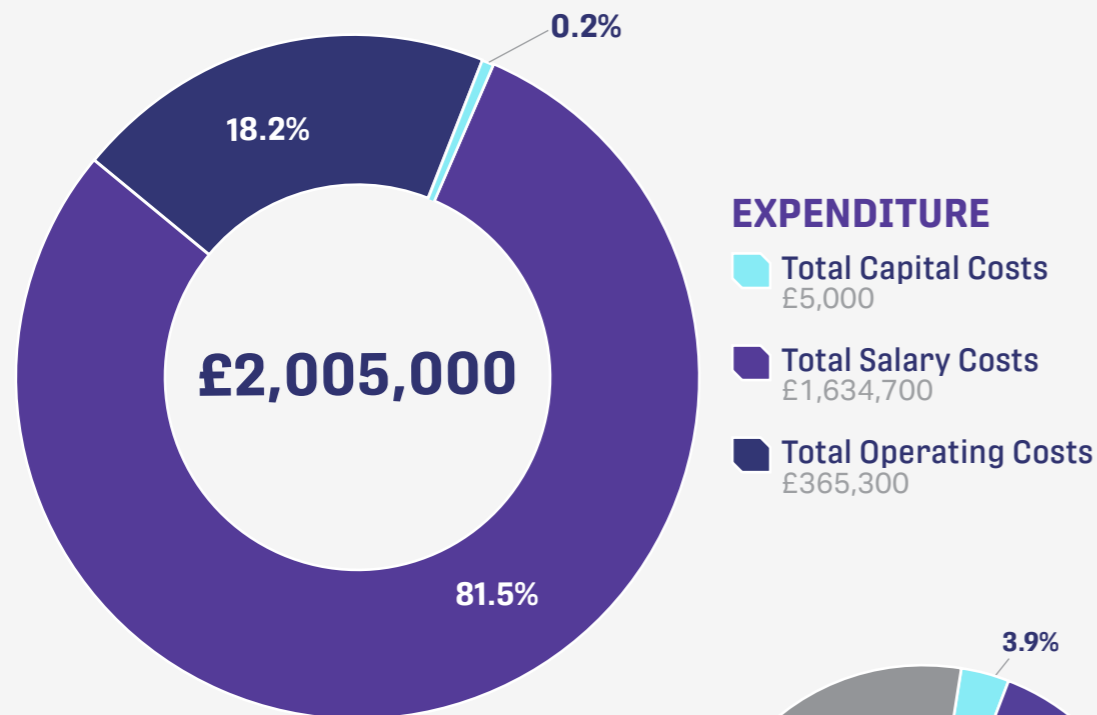

WE ARE WELL EDUCATED, SKILLED AND ABLE TO CONTRIBUTE TO SOCIETY

We deliver specialised expert training in risk assessment and risk management to police and social work, to increase knowledge, skills and confidence.
